

Global Chairs

Virtual Exchange, 17 October 2024, 15:00–17:00 CEST

23 September 2024

Programme

The regular virtual meetings of the Global Chairs of the Centre's shareholders and core supporters have brought about opportunities to exchange on current developments in the sector and Governance issues. After a successful discussion over success patterns for Chief Executives as part of governance responsibilities (meeting in May) we will continue our series of Global Chairs meeting in October with a review of changing roles of ICSOs. Power Shift, transformations and the change of business and operating models are a reality for most ICSOs in the sector. We will get input from a renowned expert on the topic, who has just published a fascinating book on '[The INGO Problem](#)', which will allow for individual and collective reflections.

Aims

The virtual agenda for the second Global Chairs Meeting 2024 shall serve two purposes:

- Improve mutual understanding of Governance issues in our organisations
- Reflect on changing roles of ICSOs

The meeting will take place in plenary, but we could discuss in smaller groups, to allow for deeper insights benefitting from each other.

Agenda, 17 October 2024 (all times CEST)

Time (CEST)	Topic(s)
15.00 – 15.15	Welcome and aims of the meeting Wolfgang Jamann (ICSC)
